

## INFORMED CONSENT (INCLUDING TELEMENTAL HEALTH SERVICES)

**Consent to Evaluate/Treat:** I voluntarily consent that I will participate in a mental health (e.g. psychological or psychiatric) evaluation and/or treatment by staff from Prevea Behavioral Care, I understand that following the evaluation and/or treatment, complete and accurate information will be provided concerning each of the following areas:

- a. The benefits of the proposed treatment.
- b. Alternative treatment modes and services.
- c. The manner in which treatment will be administered.
- d. Expected side effects from the treatment and/or the risks of side effects from medications (when applicable).
- e. Probable consequences of not receiving treatment.

The evaluation or treatment will be conducted by a psychiatrist, psychiatric nurse practitioner, a licensed therapist or an individual supervised by any of the professionals listed. Treatment will be conducted within the boundaries of Wisconsin Law for Psychological, Psychiatric, Nursing, Social Work, Professional Counseling, or Marriage and Family Therapy.

### **Consent for Telemental Health Services:**

I understand that telemental health services involve use of electronic information and communication technologies by a health care provider to deliver services to an individual when he/she is located at a different site than the provider. I understand online access to staff at Prevea Behavioral Care is provided by a third party, Zipnosis.

Telemental health services have risks, including but not limited to, poor resolution of transmitted data such as images, delays in treatment and evaluation due to equipment failure, and unauthorized access to third parties during data transmission. I understand I will be informed on the nature of the telehealth visit, the potential benefits, and risks (including those identified above) in the visit.

1. **Benefits to Evaluation/Treatment:** Evaluation and treatment may be administered with psychological or psychiatric interviews, psychological assessment or testing, psychotherapy, medication management, with expectations regarding the length and frequency of treatment provided. It may be beneficial in treatment to understand the nature and cause of any difficulties affecting daily functioning, so that appropriate recommendations and treatments may be offered. Uses of this evaluation include diagnosis, evaluation of recovery or treatment, estimating prognosis, and education and rehabilitation planning. Because treatment often involves discussing unpleasant aspects of your life, you may experience uncomfortable feelings like sadness, guilt, anger, frustration, and helplessness. Treatment can lead to better relationships, solutions to specific problems, improved cognitive or academic/job performance, health status, quality of life, awareness of strengths and limitations and significant reductions in feelings of distress
2. **Consequences of not receiving treatment:** Possible outcome of not receiving treatment include a deterioration of lifestyle, to include family life, effectiveness in school or work, and possible deterioration of physical health.
3. **Charges:** Fees are based on the length or type of the evaluation or treatment, which are determined by the nature of the service. I will be responsible for any charges not covered by insurance, including co-payments and deductibles that apply to my telemental health visit. Fees are available to me upon request.
4. **Confidentiality, Harm, and Inquiry:** Information from my evaluation and/or treatment is contained in a confidential medical record at Prevea Health, and I consent to disclosure for use by Prevea Behavioral Care staff for the purpose of treatment planning and continuity of care. Per Wisconsin mental health law, information provided will be kept confidential with the following exceptions: 1) if I am deemed to present a danger to myself or others; 2) if concerns about possible abuse or neglect arise; 3) if a court order is issued

to obtain records; or 4) situations of acute care where medical information is needed for treatment planning. I understand that the laws that protect the confidentiality of my personal information also apply to telemental health.

5. **Discharge Policy:** There are circumstances under which I may be involuntarily discharged. I have read and understand the discharge policy of the clinic.
6. **Right to Withdraw Consent:** I have the right to withdraw my consent for evaluation and/or treatment at any time by providing a written request to the treating clinician. I understand I have the right to withhold or withdraw my consent to the use of telemental health in the course of my care at any time, without affecting my right to future care or treatment.
7. **Expiration of Consent:** This consent to treat will expire 15 months from the date of signature, unless otherwise specified.

I have read and understand the above, have had an opportunity to ask questions about this information, and I consent to the evaluation and services for treatment, including telemental health. I also attest that I have the right to consent for treatment. I understand that I have the right to ask questions of my service provider about the above information at any time.
